THE LIFESTYLE ADVANTAGE

AUSTRALIAN ENERGY SYSTEMS

Live it up with your own endless summer - pool parties, family fun, relaxation and regular exercise.

Enjoy more of your pool with the benefit of a pool heating system from Australian Energy Systems.

In our climate, the typical Australian family gets just three to four months of use from their pool each year. For the rest of the year, it lies dormant, but still costs money for ongoing maintenance. With a heating system from Australian Energy Systems you can increase your swim time to nine or even twelve months a year. That's over 200% more use from your pool.

Australian Energy Systems provide a complete range of highly efficient pool heating solutions, from blankets and rollers, to solar, gas or electric. Our expert staff can guide you through a range of heating options to deliver a solution that best suits your needs. Get more from your investment, and improve your living with Australian Energy Systems.

Australian Energy Systems don't just heat pools. We deliver a lifestyle advantage and our goal is your complete satisfaction. Australian Energy Systems is a Australian-owned business enterprise, taking pride in our company, our service and our products.

Australian Energy Systems have built a reputation for the service we provide. Our broad field of knowledge and depth of experience ensures that the advice we give you is the best advice. We are recognized as professionals in efficient pool heating solutions. Australian Energy Systems work to build on its reputation every day in business.

Our customers are assured of the highest quality products. Our Quality Assurance Certification and BSA license provide our customers with reassurance that we have their best interests at heart. We have gone to outside authorities to ensure that our business meets the standards that our clients deserve. All our products are supplied with the highest industry warranties available. This is a tribute to the confidence we hold in our products.

COMPREHENSIVE WARRANTIES

All products supplied and installed by Australian Energy Systems are accompanied by the highest manufacturer's warranties available. Our solar collector is covered by an exceptional 15 year warranty. All installations are covered for a 24 month period.

SOLAR HEATING

Solar heating harnesses natural energy from the sun to heat your pool or spa. Solar provides the most cost effective means of pool heating FREE! With minimal maintenance costs and relatively low setup costs. Australian Energy Systems Solar may be the perfect solution for your family.

HEAT PUMPS

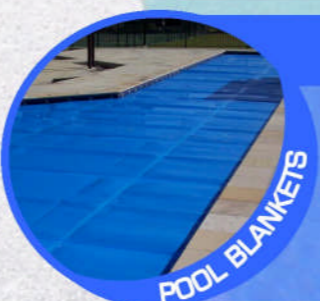

Heat pumps provide fantastic heating results with phenomenal on-going cost efficiency. A heat pump can keep your pool at the desired temperature in any weather condition. The system uses minimal amounts of electricity to draw heat from the atmosphere and transfer it to your pool.

GAS HEATERS

Gas Pool Heating offers the flexibility to heat your pool or spa fast. We supply gas heaters incorporating the latest specialized technology, combining high performance, energy efficiency and compact form. When you want heating on demand - gas is the answer for you.

POOL BLANKETS

Pool Blankets make a significant difference to the consistent warmth of your pool as well as reducing water loss due to evaporation by up to 97%. Blankets are designed using a special engineered insulated cell structure, providing a complete insulating coverage, preventing the escape of heat from your pool.

Pride in our company. Pride in our service. Pride in our products. That's the difference.

AS

HOLLANDS SWIM SCHOOL

AES tailored a heating system to suit the needs of our swim school. We have been able to reduce our running costs by 60%.

As a customer of AES for over seven years, all Goodlife Health Clubs with pools now have AES heating systems.

Keir Family - Merri

We have a beautiful pool and heating it has allowed us total control over when we use it.

McNeice Family - Cairns

Since heating our pool, we have used our pool more in the last five months than we have in the past five years.

Cook Family - Everton Park

Our friends have pools they rarely use. We decided to solar heat ours with AES at construction. Now all the pool parties are at our place.
